PINOT NOIR, CHARDONNAY, PINOT MEUNIER, SEIVAL BLANC Delicate bubbles. Fresh with medium acidity and fruity finish of creamy peach. Elderflower and orchard aromas

We have a comprehensive list of wines by the bottle. All the wines we serve are organic. Most of them are biodynamic. We are proud to introduce a good selection of natural wines by the glass as well as by the bottle.

As a special for this season we have a Selection of Organic English Wines by the glass on offer, ranging from Horsmonden Dry, Silent Pool and River Cottage. The best of local.

They say we are one of the best vegetarian restaurants around. But all we care about is to serve a simple good meal with a good glass of wine without eating away at our conscience.

We support family owned organic, biodynamic and natural producers from all over. Although the bulk of our ingredients come from British and European growers. We will favour organic produce any day, the exception goes where the labelling doesn't apply. And also to some producers who practice organic but are still waiting for that label. Some ingredients are wild so labelling doesn't cut it.

We have a great selection of the best organic wines from the Old and New Worlds. And we are very excited to be offering a great selection of orange wines, an attempt to rescue a nearly extinct tradition of natural wine making.

When we were planning our first restaurant 3 years ago in East Sheen, our mission was to make the most of what the planet has to offer without contributing to the damage to the environment. For the same reason we don't serve meat we avoid soya as much as possible. There's a good reason behind each ingredient we choose and we are very happy to talk about it.

We are not attempting to preach or lecture anyone. We are not 'anti' anything. Most of our guests are meat eaters and we will not try to convince them to change. All we are trying to do is to give folks who decide they had enough meat - even if for a day - a natural option. And for those who are just trying to find out what else nature has to offer us we'd like to do a demonstration of that. If we were anti something, that would be the over-consumption of processed food and fast-food in our daily meals. Our dishes are simple, fresh and fun in a way anyone can understand and still be surprised.

Have an uncompromisingly robust Italian red or a bold French orange wine. If you are worried about the wine matching your food, ask the chef for suggestions. We are open and welcome a good conversation. Come as you are and try it out. You might realise you don't really need to eat that much meat anyway.
